PROFESSIONAL SUMMARY

Senior Creative Designer with 7+ years of experience delivering brand identity, graphic design, motion campaigns, UI design, photorealistic 3D visualization, and real-time interactive experiences across corporate, product, and immersive technology environments. Combines strong visual design craft with deep technical range — using Adobe Creative Suite, Figma, Blender, and Unreal Engine 5 to create work that is visually compelling, technically precise, and strategically aligned. Delivered 50+ assets for global clients improving engagement by 25% and reducing turnaround by 20%. Built real-time gamification and walkthrough experiences cutting concept-to-delivery by ~30%. Designed 30+ PowerPoint decks for international engagements. Experienced in end-to-end creative ownership in remote-first environments with strong async collaboration, independent project management, and cross-timezone delivery.

KEY SKILLS

- **Visual & Graphic Design:** Brand Identity, Visual Design, Graphic Design, Art Direction, Typography, Color Theory, Layout Design, Visual Storytelling, Design Systems, Campaign Design, Social Media Design, Print Design
- **UI & Interaction Design:** UI Design, Wireframing, Prototyping, Design Systems — Figma, Adobe XD
- **Motion & Video:** Motion Graphics, 2D Animation, Video Editing, Storyboarding, Explainer Videos — After Effects, Premiere Pro
- **3D Visualization:** 3D Modeling, Texturing, UV Mapping, PBR Workflows, Photorealistic Rendering, Product Visualization, Archviz, Environment Design — Blender, 3ds Max
- **Real-Time & Interactive:** Gamification Design, Walkthrough Experiences, Blueprint Logic, Level Design, Niagara FX, Sequencer, Dynamic Lighting — Unreal Engine 5, Unity
- **Presentation & Communication Design:** PowerPoint Deck Design, Slide Layout & Typography, Data Visualization, Diagram & Iconography Design, Presentation Animation, Infographic Design, Web Standards, Social Media Constraints & Safe Zones
- **Supporting Tools:** Autodesk Maya, ZBrush, Substance Painter, NVIDIA Omniverse
- **Emerging Tech:** AI-Assisted Design, Generative AI Workflows, AI Storyboarding
- **Remote Work:** Async Communication, Cross-timezone Delivery, Independent Project Ownership, Self-directed Workflows — Slack, Teams, Zoom, Webex, Google Chat
- **Soft Skills:** Creative Direction, Art Direction, Stakeholder Presentation, Client Briefing, Multi-project Management, High Accountability

PROFESSIONAL EXPERIENCE

IMMERSIVE TECH SPECIALIST

Sutherland Global Technologies - Hyderabad, India | Feb 2025 – May 2026

Joined under ATMECS Global Inc to establish creative direction for the immersive technology division; continued in the same role under Sutherland following operational integration in August 2025. Collaborated closely with software engineers, marketing and research teams, data scientists, VPs, and senior stakeholders.

- Built digital twin simulation environments (rocket engine, MRI brain scan) with the team — Unreal Engine 5, Unity, Blueprint logic, simulation integration, and VR/AR delivery
- Collaborated on an AI agent project — built and integrated a Metahuman digital character into Unreal Engine 5 for web deployment
- Designed Unreal Engine 5 UI systems, gamified walkthroughs, and Blueprint-driven event flows

- Produced 2D/3D motion graphics, advertising videos, and client presentation materials — branding, editing, and animation in After Effects, Premiere Pro, Illustrator, and Photoshop
- Produced 20+ photorealistic Blender product visualizations using PBR workflows and cinematic lighting
- Integrated AI-assisted design tools — reduced concept-to-delivery timelines by ~30%
- Established creative direction, design quality standards, and reusable asset libraries for the team

VISUALISER

Mott MacDonald Pvt. Ltd. - Noida, India | Apr 2021 – Jan 2025

Led visual design, brand systems, motion, presentation design, and 3D visualization for global engineering and infrastructure projects — working cross-functionally with designers, engineers, architects, software teams, marketing, senior management, and international clients and VPs.

- Delivered 50+ visual assets across 5+ countries over a 4-year tenure — improving client engagement by 25%
- Contributed to major global programmes including NEOM THE LINE, Red Sea, Heathrow Terminal 5, the New Hospital Programme, HS2, A3 Hindhead Tunnel, and Singapore's North-South Corridor
- Also worked on Fleming Fund (UK), Auckland's Point Chevalier–Westmere corridor upgrade, Australia's aircraft sustainment programme, computer-vision AI planning, New Zealand's net-zero programme, a first-of-its-kind UK rail bridge, and Girls' Education (South Sudan)
- Produced bid presentations, 3D walkthroughs, and process-visualization films for major engineering programmes
- Created 2D/3D motion graphics, explainer videos, and photo montages, plus 30+ PowerPoint decks for international clients
- Designed website UI layouts; produced photorealistic 3D visualizations and UE5 walkthroughs in Blender and 3ds Max
- Built brand design systems for visual consistency across digital, print, and presentation formats — cut turnaround ~20% with reusable libraries

FREELANCE CREATIVE DESIGNER

Visual, Motion & 3D | Independent - Sopore, India | Apr 2019 – Mar 2021

Independent creative practice covering brand identity, motion graphics, UI layouts, and 3D visual content for clients across retail, services, and digital sectors — working directly with CEOs, marketing teams, printers, and key stakeholders.

- Delivered 15+ brand identity, campaign, and 3D visualization projects with 100% on-time completion
- Designed brand identities, UI layouts, marketing assets, and digital content using Adobe Creative Suite, Blender, and 3ds Max
- Managed 4–6 concurrent projects with 90%+ client retention and repeat engagement rate
- Produced motion graphics, 2D animations, and 3D product visuals for campaigns and social media content
- Directed client briefing, creative strategy, and final delivery independently

CERTIFICATIONS

Complete Figma Course: Web & Mobile Projects from Scratch | Master Digital Product Design: UX Research & UI Design | Unreal Engine 5 – Lighting, Fog & Post Processing | Blender & After Effects VFX Masterclass | Character Animation with Blender | Cinematography and Filmmaking | Diploma in Graphic Designing | Leading Hybrid and Remote Teams | Systems Thinking+ | Introduction to Design Thinking

EDUCATION

Bachelor of Arts | University of Kashmir, India | 2017

LANGUAGES

English (Fluent) | Hindi (Fluent) | Urdu (Native)
